

FCC Commissioners  
The Federal Communications Commission RE: Docket 04-435  
445 12th Street, SW  
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency. Cell phone use could also enable terrorists to coordinate a plan of action more effectively.

I believe that if there is any possibility that cell phone use on an airplane can interfere in any way with the safety of the aircraft and its passengers, there should be no law that would want to allow the cell phone usage during a flight.

Please leave the current rules in effect.

Sincerely,

Christene Johnson
